# GBT receives the largest single order in its 19-year history

2019-11-15 14:19

The Black Forest-based manufacturer of bakery systems and machines located in Villingen-Schwenningen and Lünen has received another large order for a customer in the Middle East. As GBT managing director Wolfgang Fuhst informs, it concerns the supply of 4 fully automatic flat bread plants, with an output of no fewer than 14,000 flat breads per hour.
The GBT team congratulates the project manager and consultant Peter Fischer and all the staff who worked on this project to this great success.
