The fourth flatbread line is on its way to the customer in the Middle East.

We are pleased that the fourth flatbread line, after successful final acceptance at the Villingen-Schwenningen plant is well packaged in 24 containers and going on the long journey.

The GBT team shows once again that our customers can rely on our outstanding expertise and the highest quality standards. Even under the most difficult conditions of the pandemic, we are fulfilling our obligations and getting the high-performance system on its way on time. This completes the quartet for this customer.

In the future, the four GBT systems will produce a total of an unbelievable 64,000 pieces / hour flatbreads and that in continuous operation 24/7.

We, the GBT team, are always at our customers' side and wish them continued success and above all good health.
